## From the Desk of the Executive Director

Dear Brothers,

Fall is upon us which means recruitment, football games, homecoming, These Hands Don't Hurt and campuses being in full swing. We are excited to see so many things moving forward for our Fraternity. Our Delta Chapter at KU moved into a new property on campus that they dedicated last weekend. Our Gamma Beta Chapter at Alabama celebrated their 30th anniversary two weekends ago. We started a new provisional chapter at East Carolina University. Our chapters around the county are sharing great stories and experiences that truly define what it means to be a member of our organization.

As always there is a lot of great information in this newsletter. I want to highlight the Conclave information. Conclave has been moved to January and is literally a few months away. Our undergraduate presence at the event is constant. What we would love to see is a greater alumni presence. We know COVID changed how people travel and what they travel for. We are all having to adapt. Our hope is that Conclave is one of those things that alumni would be willing to travel for. Alumni presence at our national events cannot be discounted related to the undergraduate experience. Alumni at these events serve as models, mentors and leaders to our undergraduates. It also helps reinforce that Fraternity is more than an undergraduate experience. I hope to see many of you there in January.

Fraternally,

A handwritten signature in blue ink that reads "J. D. Slivinski".

# Staying Safe During Halloween

Before many of you will celebrate the Halloween night, the National Headquarters would like to share a few reminders with everyone to stay safe and remind everyone to always strive to be a "Man of Character."

Costumes are meant to be fun but never offensive. An individual's culture and/or lifestyle should never be a costume. Speak up if you see a member or friend of the fraternity doing so, and make sure you do not make this mistake yourself of wearing something offensive. A great rule of thumb: if you must ask if it is inappropriate, it is not a good choice for a costume. Even good intentions can go bad.

Remember that costumes that allow for hidden identities provide an increased opportunity for risk. If you are hosting an event, make sure you know everyone that is in attendance. Use a guest list and identify who is in what costume. If you do not know someone in attendance, ask them to leave immediately.

Costumes do not imply consent. Make sure there is an understanding of consent before engaging in sexual activity and know past consent does not mean future consent. We encourage all individuals and chapters to create an environment where sexual assault and/or sexual harassment is never tolerated. Individuals should intervene if they identify a situation where sexual assault and/or sexual harassment could occur.

Extreme parties are common around Halloween so make sure your risk management plan has been updated and reviewed with all members. If the chapter does not have an event planned, make sure that an impromptu one does not occur. Such events tend to violate policies and may lead to injury or worse.

For all these warnings, we encourage you to have fun! Halloween can and should be a great time for all AKL members. It should also be a safe environment for all those around us. We share these tips not to be restrictive, but to be supportive. The Fraternity does not want someone to get hurt or a chapter to get into trouble. Stay vigilant and remember: Be Safe, Be Smart, Be Men of Character.

# Bystander Intervention

From the Higher Education Center for Alcohol and Drug Misuse Prevention and Recovery

The bystander effect refers to incidents in which individuals do not offer any means of help in an emergency or potentially dangerous situation to the victim when other people are present. Often, the greater the number of bystanders, the less likely it is that any one of them will help. The mere presence of other bystanders greatly decreases intervention. In general, this is believed to happen because as the number of bystanders increases, any given bystander is less likely to notice the situation, interpret the incident as a problem, or assume responsibility for taking action. A bystander, or witness, is someone who sees a situation but may or may not know what to do, may think others will act, or may be afraid to do something.

According to the National Sexual Violence Resource Center, bystander intervention programs teach potential witnesses safe and positive ways that they can act to prevent or intervene when there is a risk for sexual violence.

“A bystander approach gives community members specific roles that they can use in preventing sexual violence, including naming and stopping situations before they happen, stepping in during an incident, and speaking out against ideas and behaviors that support sexual violence. This approach develops skills to be an effective and supportive ally to survivors after an assault has taken place.”

## What the Evidence Tells Us

Much of the recent research on bystander intervention programs at universities has focused on sexual violence prevention. A 2007 study evaluated a sexual violence prevention program based on a community of responsibility model that teaches women and men how to intervene safely and effectively in cases of sexual violence. Results from the research reveal that up to two months after participating in the program, participants in the treatment conditions showed improvements across measures of attitudes, knowledge, and behavior while the control group did not.

## Lessons Learned From Colleges and Universities

Several nationwide prevention programs geared for campuses utilize a bystander approach to address and prevent gender-based violence. They included Bringing in the Bystander Program and Know Your Power Social Marketing Campaign from the University of New Hampshire; Mentors in Violence Prevention; and The Red Flag Campaign from the Virginia Sexual and Domestic Violence Action Alliance.

The Step UP! program at the University of Arizona is a prosocial behavior and bystander intervention program that educates students to be proactive in helping others. It is based on the premise that teaching people about the determinants of prosocial behavior makes them more aware of why they sometimes don't help. As a result they are more likely to help in the future. The goals of Step UP! are to:

- Raise awareness of helping behaviors.
- Increase motivation to help.
- Develop skills and confidence when responding to problems or concerns.
- Ensure the safety and well-being of self and others.

A 2011 evaluation of the Green Dot active bystander behavior training program found that trained students had significantly lower rape myth acceptance scores than did students with no training. Trained students also reported engaging in significantly more bystander behaviors and observing more self-reported active bystander behaviors when compared with nontrained students.

Those receiving bystander training appeared to report more active bystander behaviors than those simply hearing a Green Dot speech, and both intervention groups reported more observed and active bystander behaviors than nonexposed students.

# AKL Risk Management Training

## National Fraternity Risk Management Education & Resources

### AKL Foundations

The AKL Foundations course of the New Member Entry Process is designed to make joining members better leaders by educating them on the issues facing college students today. As members of the Greek system, students are campus leaders and role models.

As leaders they may face difficult and challenging situations. It is how they respond to these difficult situations that help them learn and develop into effective leaders who make a positive contribution to the campus community. While our members may not encounter these challenges personally, they may have brothers or friends who do.

AKL Foundations will also cover; Drugs & Alcohol risk management and best practices, Anti-Hazing education, Sexual Violence Prevention, and Mental Health resources.

### SPEAK UP Sexual Violence Prevention

This course will educate members of AKL as to the devastating impact of sexual violence on victims, in fraternities and sororities, and the university community. Many members will say initially that “I would never do anything like that.” or “That does not happen in my chapter.”

### Name Your Story Mental Health Education

By completing the Name Your Story Mental Health Education course, members will become aware of the most common mental health disorders diagnosed among college students including depression, anxiety, suicide, and related risk behaviors involving alcohol, illicit drugs, and non-medical use of prescriptions drugs.

### Recognize / Challenge / Change Diversity, Equity, and Inclusion Education

Recognize. Challenge. Change. is an honest conversation about our increasingly interconnected and diverse world. Participants will challenge myths regarding the historical and present day distributions of power, investigate the role of racism and anti-racism in social, professional, and educational spaces, and feel empowered to analyze their own social identities and positions within systems of power.

### Definition of Hazing

*No chapter, provisional chapter, student, or alumnus should conduct, participate in nor condone hazing activities. Permission or approval by a person being hazed is not a defense. Hazing activities are defined as:*

*“Any action taken, or situation created, intentionally, whether on or off fraternity premises, to produce mental or physical discomfort, embarrassment, harassment, or ridicule. Such activities may include but are not limited to the following: use of alcohol, paddling in any form, creation of excessive fatigue, physical and psychological shocks, quests, treasure hunts, scavenger hunts, road trips or any other such activities carried on outside or inside of the confines of the chapter house; wearing of public apparel which is conspicuous and not normally in good taste, engaging in public stunts and buffoonery, morally degrading or humiliating games and activities, and any other activities which are not consistent with academic achievement, fraternal law, ritual or policy or the regulations and policies of the educational institution or applicable state law.”*

# Growing The Fraternity

“Recruitment is the lifeblood of the Fraternity.”

## Recruitment Minimums & Results

In order for any organization to be sustainable and grow, every member must be committed to recruitment. Fraternity recruitment should not be the sole responsibility of the Recruitment Chair.

Every undergraduate member should strive to recruit one new member per semester to assist chapter and fraternity growth. Members who are graduating at the end of the semester should aim to recruit two new members, one to fill your spot and a second to help the fraternity grow.

Every year, the National Fraternity sets Recruitment Minimums for each AKL chapter. These minimums are based on campus size, past recruitment targets and achievements, and input from the chapter leadership. The following chart is the 22-23 academic year Recruitment Minimums and results following the ongoing Fall and Spring.

## Omega Chapter

### Remembering Our Brothers

**“Brothers and friends, we are assembled to remember those once among us who have received their calling from on high and passed into the eternal Omega Chapter of the Fraternity of Alpha Kappa Lambda. This is at once a time of sorrow at the loss we have all sustained, and the celebration of the many happy memories we will hold dear forever.**

The fraternal tie that binds is a lasting bond; yet, a place once filled among us is now empty; a voice once known to us is now silent; the form we grew to know, and welcome will no longer be seen by us in this life. Yet, these Brothers are alive in the hearts and the memories of us all and will ever be held dear in the ‘halls of Alpha Kappa Lambda.’ It is fitting that we here pause and reflect upon the transience of life and remember those who have come and gone before us.

And we answer for every Brother named, ‘Present’ for though we can no longer grasp their hands in friendship nor look them in the eye, they are seen and heard with the eyes and ears of faith... the faith that someday we will meet again.”

– Excerpt from the Omega Ceremony
