THE LOGOS

OF

ALPHA KAPPA LAMBDA

THE CAMPUS CENTER

"I am not a fraternity man, since I was graduated from a liberal arts college where fraternities do not exist. But without hesitation, I approve and support the fraternity system. It is on our campus not by sufferance but by design. . . . (An) advantage of the fraternity system is that the home in which you live together becomes a place of living and learning. . . . The total development of the individual up to his or her God-given potentials should be the goal of the group. In this atmosphere academic standing is important, and competition with other living units is normal. Here, too, the social life of the individual will be kept in focus. Some of the rough edges will be smoothed off and some of the 'smoothies' will be roughed up a bit for their own good and the good of civilization. The house at its best is the campus center of a living and learning experience."—Dr. Russell J. Humbert, president DePauw University (as quoted in NIC News).

Our Cover

Clarence E. Brehm, Kansas State '32, is one of the men primarily responsible for the outstanding new chapter house recently completed by Iota chapter at Kansas State College. When the collegiate and alumni members dedicated their new house on November 17, 1957, they planned a surprise for him. An oil portrait of Mr. Brehm was presented to the chapter and will now be displayed prominently in the new house. Shown here are Mr. and Mrs. Brehm viewing the portrait.

IOTA DEDICATES HOUSE

More than 200 AKL alumni, actives, and guests were present November 17, 1957, when Iota chapter dedicated its fine new chapter house at Manhattan, Kansas, on the campus of Kansas State College. It was a festive occasion and marked the culmination of a three-year building program for the chapter.

The formal dedication was delayed from last spring until fall so that all the new furniture and equipment would be in use. When school opened in September, the more than \$20,000 worth of specially ordered furniture had been delivered.

Highlight of the dedicatory ceremonies was the presentation of an oil portrait of Clarence E. Brehm, Kansas State '32, which will now be displayed permanently in the new house, in appreciation for his great contribution to the chapter. Brehm, of Mt. Vernon, Illinois, is one of the country's leading independent oil producers and is president of the Iota Board of Trustees. He was instrumental in arranging financing for the house construction, and even aided in this himself.

The ceremonies opened promptly at 2 p.m., with Leslie King, Kansas State '31, as master of ceremonies.

Les is one of the charter members of the chapter, and is now a top engineer with the Murray Wilson Co. of Salina, Kansas, and has his home at Wichita. Others appearing on the program were Rev. B. A. Rogers, Iota honorary, who is head of the Wesley Foundation at Kansas State College; Joseph W. Henkle, Sr., the Lieutenant-Governor of Kansas, who represented Governor Docking; Dean Herbert Wunderlich of the Kansas State College faculty; the former college president, Dr. Farrell; and Dr. A. A. Holtz, Iota Honorary and retired Dean of Men.

Clarence Brehm gave a history of Iota chapter, telling of the men who organized the chapter in 1930, and also of those who worked in Delta Nu Omega which preceded it.

Warren Lyttle, Kansas State '33, vice president of the Iota Board of Trustees and a veteran electrical engineer with Beech Aircraft Co., Wichita, presented a brief history of the building project, which really got underway in the fall of 1954. He traced the various efforts leading to the new house—the "drive for the site," the architectural planning, and finally the actual construction.

The National Executive Council

DEDICATION. Sunday, November 17, 1957, was a big day for Iota chapter. That day marked the dedication of the chapter's fabulous new home. The above picture captures the group as the portrait of C. E. Brehm, Kansas State '32, is unveiled.

of the Fraternity was represented by Lewis J. Bacon, executive secretary, who read a brief statement from National President Ted F. Andrews.

At the conclusion of the program, the portrait of Mr. Brehm was unveiled. This means of expressing appreciation was devised by the active members without the knowledge of Mr. Brehm. The portrait was painted from photographs by a New York artist.

Following the ceremony, refreshments were served by Mrs. Granger, housemother, assisted by sweethearts and pin-mates of the chapter members. The house was then opened for inspection by all members and guests.

The new house is constructed of steel and concrete, with exterior walls of native stone and redwood

backed with haydite blocks. It is appointed with green porcelain panels between the windows. The house has built-in desks and dresser units, and houses more than 60 men. A parking area accommodates over 25 cars. The house faces north on Hunting Ave. and is located two blocks west of the campus.

At the dedicatory ceremonies, President Brehm announced that the Board of Trustees had contracted for the purchase of two 80-foot lots adjacent on the east. This will give Iota chapter the full corner of Hunting Ave. and Sunset Ave., with a 400-foot frontage on Hunting.

IOTA. Shown on the opposite page is a picture of the audience at the Iota dedication, gathered in the house dining room. Leslie King, Kansas State '31, presides. Right: Barry Rupard, chapter president, Warren Lyttle, Kansas State '33, and Lewis Bacon, AKL National Executive Secretary, view the portrait of Mr. Brehm.

Our Fraternity Tomorrow

by

HARRY HOLLIS

*AKL National President, 1939-41
Engineer, Indiana Bell Telephone Co.*

The history of Alpha Kappa Lambda is a remarkable and an inspirational story. We have a great heritage. We take great pride in the ideals of our founders and have endeavored to uphold them down through the years. Considering how difficult it is to maintain one's enthusiasm and zeal for a cause, and how quickly mountain-top experiences, such as our initiation, grow dim and hazy, I feel we have been signally successful. But it does help to periodically review and recapture the vision and inspiration of our early brethren.

Our Fraternity actually entered the embryo stage in 1905 when Charles Booth, who later became a college dean, and Gail Cleland, who became a clergyman, laid plans for organizing a house group at the University of California. The San Francisco earthquake and fire deferred their plans until January 1907 when eleven men founded the Los Amigos Club, meaning "The Friends." On April 22, 1914, at the suggestion of University President Benjamin Ide Wheeler, the local club changed to a Greek letter society, adopting the name of Alpha Kappa Lambda, and became the first national fraternity to be founded on the west coast.

By 1934 Alpha Kappa Lambda had chartered 9 active chapters, four on the west coast and five in the middle west. There was a spirited rivalry between these two groups, each trying to out-do the other. Colonization was slow and expansion came to a standstill with the depression.

In the January, 1938, issue of *The Logos*, President Irving Dilliard reported on his official visits to a number of the chapters with these words: "Alpha Kappa Lambda is the fraternity its founders meant it to be. Make no mistake about that. Not that it has reached perfection or realized the ideal held out for it. There is much that can be done and is being done to improve it all the time. But it is the fraternity the founders meant it to be in the sense that it remains true to the principles of those pioneers in brotherly living who brought it into being almost a quarter century ago."

And so we can say that as World War II approached we adhered to our ideals. Every chapter had leaders in the Christian groups on her campus. Scholastically Alpha Kappa Lambda was first 23 of the first 27 years of her existence among national social fraternities.

Our chapters were all located at outstanding institutions of learning. And we had an excellent magazine in *The Logos*.

But we had weaknesses. We needed a full time secretary to help strengthen our national organization and direct our colonization efforts. We needed to secure more chapters so that we could improve our financial situation. And we wanted to be able to offer more help to the chapters when they desired and required it.

AKL Today

It appears that we have done a good job of solving our weaknesses of yesterday. We have an excellent full-time national secretary in Lewis Bacon. Since World War II ten new chapters and seven alumni groups have been chartered, and two chapters reactivated. We have been accepted as a senior member of the National Interfraternity Conference. Certainly, we are a more cosmopolitan group.

However, as has happened to the American people generally since World War II, it appears that our ideals have suffered. I note that on the average an Alpha Kappa Lambda active attends church three Sundays out of four. However, there is little indication that today's members approach the activity of their predecessors in campus religious activities, of having aggressive Christian character. As for scholarship, I believe we were 11th in the 1952-53 school year among national social fraternities. Other than that I understand we have always been in the first five since the war, but never first.

So we find that since World War II we have continued to make excellent progress in all our endeavors except, perhaps, in our ideals. And looking ahead we visualize and anticipate a bright future for Alpha Kappa Lambda.

AKL Tomorrow

All of us want her to grow in stature and continue to adhere to the principles of her founders. We know that this won't just happen, that our leaders must plan and guide our Fraternity's growth every step of the way, else our goals will not be achieved.

I think we will want to improve our ideals. Many years ago a man named George Horace Lorimer wrote a letter to his son who was in college, a portion of which read as follows: "I'm anxious that you should be a good scholar, but more anxious that you should be a good, clean man. And if you graduate with a sound conscience, I shan't care so much if there are a few holes in your Latin. There are two parts of a college education—the part that you get in the school room from the professors, and the part you get outside of it from the boys. That's the really important part. For the first can only make you a scholar, while the second can make you a man."

Alpha Kappa Lambda is interested in making men—Christian men. Ideals are not born, they are made; actually they are developed over a long period of time. If a man is going to respect our ideals he must have received basic training at home. We can do little more than continue to develop and more definitely form the character of our members.

Our Fraternity is a social organization. It is a close association of men with similar tastes and aspirations. Its members must work together or it will die for want of a purpose. A number of lessons can be learned from this group living. The group is responsible for the conduct and welfare of its members. Such problems as a pledge lacking in social graces, an active having trouble with his studies, or a man with no sense of

financial responsibility, become chapter problems as well as individual problems. The sharing of victories, of accomplishments and failures, of exhilaration and depression, are some of the reasons why fraternities are formed.

The fraternity also teaches that the individual shall have maximum freedom, but his freedom must not encroach upon the freedom of others or the welfare of the group. Often times it is difficult to make a distinction between these two, and the problem must be resolved by the chapter through the democratic processes of discussion, deliberation and decision. The chapter, however, must remember that (1) The ideals of the organization must not be compromised. (2) The loyalties of the individual must not be contrary to the best interests of the chapter or the college. (3) Moral laws must not be violated.

James C. Logan in a recent issue of "The Fraternity Month" magazine outlined the qualities most desirable in a prospective pledge. He listed them as character, scholarship, congeniality, extracurricular activities, financial sufficiency and athletic ability. No high school student should be considered who is not well above the average of his class in grades. The poorer student, thrown into stiff competition with better ones, may not make his grades to be initiated. In high school he should have demonstrated a respect for and appreciation of good scholarship, for his fellow students as well as for himself. If he becomes a pledge and finds a group emphasizing the ideal of good scholarship he will readily accept this ideal. If however, he sees upperclassmen fluff off their work without penalty he cannot help but lose interest in scholarship, and lose respect for some of his future brothers.

Freshmen must be guided by

good example. Often poor scholars are upperclassmen who were motivated as pledges into making grades sufficient for initiation and who then "relaxed." The adverse effect on chapter scholarship is considerable if this "relaxed" condition lasts for three years. The secret of a high index is for a chapter to have no individuals with low grades, rather than to depend on a few Phi Beta Kappas or Tau Beta Pi's.

As for financial sufficiency we should inquire into the economic status of the prospective pledge's family. Can he afford college and fraternity membership? Education is expensive. If we must assure the prospect of a job he may become a financial liability. The more the prospect needs to earn, the higher should be his scholastic standing, because too much work will interfere with study time.

We've talked a lot about what we should look for and expect from our prospects. But we mustn't overlook their point of view. We can't coax, high pressure, force or by any other such means get a good man to pledge our Fraternity. We must make him feel that there is something in our house that he wants and needs, which he can't secure anywhere else.

I should like to close with another thought which Mr. Logan expressed in the article mentioned previously. An architect charged with the responsibility of erecting a strong edifice will be very careful of the quality of material that goes into it. Likewise, if a strong chapter is to be built we must be critical of all the material that goes into its building. The material must be selected from prospective pledges, for pledges become human stones in our carefully planned structure. Character, scholarship and finan-

(Continued on Page 10)

National Officers Meet In Los Angeles

During the closing days of summer, 1957, the national officers of Alpha Kappa Lambda met at Los Angeles, California, to consider fraternity problems and plan programs for the future. The National Executive Council is made up of the elected officers, and includes the national president, the national vice-president, the national treasurer, the national editor, and the national executive secretary.

Attending the 1957 sessions were Dr. Ted F. Andrews, David M. Allen, Robert L. Davis, and Lewis J. Bacon. Others participating were Lloyd G. Hall and Robert C. Robertson, both members of The Logos Foundation Board. The national vice-president, Dr. Rixford K. Snyder, was unable to attend.

The annual meeting convened on August 22 in the Board room of the Fidelity Federal Savings and Loan Association in Glendale. The sessions extended through the day and through the morning of the following day. The minutes and resolutions of the 18th National Conclave were reviewed and considered, and the work of the National Office was discussed.

Of principal concern to the National Executive Council was the great need for additional help in the work of the National Office, particularly to assist with chapter visitation work and expansion work. It was the general feeling of all participants that AKL's great expansion opportunities made it necessary that the fraternity incur this expense, even though it did not now have sufficient income to cover the cost. The NEC therefore acted to direct that a field secretary be hired beginning July 1, 1958, and asked that the National Executive Secretary obtain applications and personal data on qualified AKL seniors.

Dealing next with financial matters, it was reported that **The Logos** subscription program had produced \$977.00 in subscription fees. After consideration of the financial needs of the fraternity, the NEC acted to establish an annual "Alumni Dues" of \$5.00, effective January 1, 1958. The dues are to include the subscription to **The Logos**, as well as additional mailings from the National Office, and an amount to help with AKL's expansion program.

The matter of a new AKL song book was discussed, and the NEC authorized the National Office to initiate work on a new edition. An expenditure of not more than \$1,000 was approved for the printing of at least 600 copies, the copies later to be sold to chapters and members at cost. The NEC also approved the purchase of additional needed paraphernalia to be used in the installation of new chapters.

On recommendation of the National Executive Secretary, the NEC approved plans to hold the 19th National Conclave at the Stanley Hotel in Estes Park, Colorado, on August 31, September 1, 2, 3, 1958. Having its Conclave at a resort hotel will be a new innovation for AKL, and every effort will be made that the Conclave will be successful.

The members of the National Executive Council attended a meeting of the Los Angeles Alumni chapter on the evening of August 22, and gave brief reports on activities. On August 23, the NEC met with members of The Logos Foundation Board for lunch. And on the evening of August 23, Mr. and Mrs. Lloyd G. Hall were hosts at a picnic served in Glendale for members and their families.

Lloyd Hall Appointed To Vice-Presidency

Lloyd G. Hall, California '14, has been appointed to the position of National Vice-President of Alpha Kappa Lambda Fraternity, succeeding Dr. Rixford K. Snyder, Stanford '30, who resigned because of lack of time to devote to fraternity affairs.

The resignation was announced and the new appointment made in early September, 1957, by Dr. Ted F. Andrews, National President.

Brother Hall has twice before served as National Vice-President, his most recent term being 1949-51.

He helped form AKL in 1914 as a student at the University of California. Later he was instrumental in the establishment of the National Endowment Fund, and also in the formation of Theta chapter at the University of Washington.

Presently a member of The Logos Foundation Board, Lloyd was one of the early backers of that group. His service to the fraternity has also included chairmanship of the National Committee on Organization which reported to the 18th Conclave.

He is a retired life insurance underwriter and is now on an extended trip through the United States, during which he will visit every AKL active chapter. His wife, Lois, a retired home economics teacher in the Los Angeles school system, is accompanying him.

COMMITTEE APPOINTMENTS

A permanent "Committee on Organization" has been appointed by President Ted F. Andrews, in accordance with the action taken by the 18th National Conclave. Announcement of the appointments came in September, 1957.

Dr. H. George DeKay, Purdue Honorary, past National President,

1947-51, will be chairman of the committee. Other members are Joseph B. Rogers, Washington State '37, past National President, 1945-47; Harry H. Hollis, Purdue '35, past National President, 1939-41; J. Glenn Hahn, Kansas '48; Robert McCreary, Illinois '41; Harry Denny, Washington '31; and three AKL actives, the president of Mu chapter Donald Colegrove, the president of Iota chapter Barry Rupard, and the president of Omicron chapter Larry Boyd.

The Conclave action which established this committee provided that its membership should be the three most recent past National Presidents, three alumni serving two year terms, and three undergraduates serving one year terms. The duty of the committee is to study the operation of the fraternity and to make suggestions to the Conclaves for improvements.

NIC OPENS CENTRAL OFFICE

The National Interfraternity Conference, of which Alpha Kappa Lambda is a senior member, has taken great strides recently, in keeping with the progress generally of the Greek world. A year or so ago, a complete reorganization of the Conference was carried out, and a House of Delegates organized. Also, adequate financing was arranged.

Now, the NIC has obtained permanent office facilities, located at Room 706, 15 East 40th Street, New York City. All Conference records, now stored in attics and cellars in the homes of N.I.C. committeemen, will be brought to one office. It is hoped, also, that the new facilities will help create better liaison between college administrators and Interfraternity councils.

The recent N.I.C. convention was held at Colorado Springs, Colorado, at the Hotel Broadmoor, during the Thanksgiving holiday. Alpha Kappa Lambda was represented by two delegates.

THE LOGOS FOUNDATION ANNOUNCES

The Holmes Award Winner

Ray North, of Iota chapter, Kansas State College, is winner of the 1956-57 Holmes Award, given each year by The Logos Foundation to the outstanding collegiate leader in Alpha Kappa Lambda. It honors the memory of Dr. Fred G. Holmes, California '15, who lost his life in a tragic sea accident on August 7, 1955.

This year's winner is a pre-law student who has made an outstanding record. In keeping with his interests, Ray North has been on the varsity debate team since entering college, and he is a member of Delta Sigma Rho, national forensics honorary. He has helped plan mock political conventions, and serves on the executive board of the Young Republicans. He is a 4-year member of the Kansas State Student Government Board, and was candidate for student body president in 1957, losing by a small margin.

His community service includes spearheading the Greek Week clean-up project. He has also been deputations team chairman for the Wesley Foundation, Methodist youth group, and arranged programs for over 20 small churches.

In fraternity affairs, Ray North has been a top-notch rush chairman and headed the 1956 effort when 21 men pledged. He has also served as social chairman, planning the "Senior Honors Dinner." He has been largely self-supporting and has worked at the collegiate press. For 1957-58, Ray is recipient of a Brehm Foundation Scholarship grant.

Ray North

Bill Hammond

Second Place winner in the competition for the Holmes Award was William E. (Bill) Hammond, of Sigma chapter, Central Missouri State College. A fine student, ranking in the upper three per cent of his graduating class, Bill played active roles in many worthwhile campus groups, including the International Relations club, UNESCO, Collegiate Council for United Nations, and the Student Christian Association. He was a prominent participant in district and regional affairs of the YMCA. Bill also served as yearbook editor, and was in campus dramatics and forensic work.

Phillip C. Hoeffler, Wisconsin '31, is production engineer with General Controls Co., Iron Mountain Division. His address is 704 West A St., Iron Mt., Michigan.

2nd Lt. Jerry Friesen, Kansas State '55, and his wife announce the birth of a baby girl this past fall. He is stationed at Travis AFB, California.

The College Fraternity Secretaries Association has launched an all-out program for the improvement of a long-time important project of college fraternities—formal rush. I have constantly been amazed at the wide variety in formal rush activities at colleges and universities throughout the country. This year, while participating in formal rush activities at seven different schools, the need for some improvements became quite apparent.

At the annual gathering of fraternity secretaries this past summer, a letter was drafted and approved to be sent to all Deans of Men and I.F.C. presidents calling for the stop of "certain practices and wasteful expenditure in time and money" by outlining three basic suggestions:

1. Avoiding the use of any alcoholic beverages in rushing.
2. Limiting formal rush to one week or preferably less.
3. Reducing rushing expenditures by eliminating professional entertainment and elaborate parties."

At some schools, the fraternity costs of rush week participation make the pledging of a man cost the chapter several hundred dollars. Elaborate parties, including dances (at which very little rushing is done except to the opposite sex), make some formal rush functions a farce.

My hat is off (since an illness prevented me from attending the 1957 session) to the C.F.S.A. for an important step in the right direction. The combined effort of fraternity secretaries in the great fraternity system can do much to improve many phases of fraternity activities on the local level.

Enthusiasm is running high in both collegiate and alumni chapters in regard to the 1958 National Conclave to be held in the beautiful Stanley Hotel in Estes Park, Colorado on August 31, September 1, 2, 3. It is AKL's first resort Conclave and if this early spirit is maintained, we will find attendance figures doubling any previous Conclave. Why don't you plan to tour the Rockies and stop at the Stanley during your 1958 vacation?

Lewis Bacon
National Executive Secretary

OUR FRATERNITY . . .

(Continued from Page 6)

cial sufficiency are indispensable; humans lacking in them will weaken our structure. As small flaws in a stone will not necessarily prevent its use by the builder, so deficiencies in congeniality, extracurricular activities and athletic ability need not exclude the prospective pledge. However, too many imperfections in one stone will render it useless. So also lack of personality, lack of interest in extracurricular activities or in athletics, all combined, render a prospective pledge useless as a human stone in our strong chapter.

Here then is the key to our future. We must be critical in our selection of pledges. If we do this, then with good leadership we will continue to improve and remain true to the principles of our founders.

Ralph L. LeFevre, Purdue '48, is serving on the Air Force R.O.T.C. staff at Michigan State University in Lansing. He and his wife Lois have a daughter, Annette Suzanne, born October 24.

THE LOGOS FOUNDATION ANNOUNCES

Chapter Awards

Community Service Award:

Lambda chapter, Kansas State Teachers College, Emporia, Kansas

Newsletters Award:

"Iota Informer" of Iota chapter, Kansas State College.
Second place winner: "Mu Train," of Mu chapter, Ohio State University. Third place winner: "Kappa Kaptions" of Kappa chapter, Purdue University. Fourth place winner: "Beta Bulletin," of Beta chapter, Stanford University.

Religious Activities Award:

Pi chapter, Millikin University.

Campus Activities Award:

Pi chapter, Millikin University.

Improvement Award:

Iota chapter, Kansas State College.

Loyalty Award:

Mu chapter, Ohio State University.

Lambda Chapter Starts New House Project

The first spade of dirt was turned on November 2, for the new home of Lambda chapter of AKL, at Kansas State Teachers College, Emporia. Completion is expected in late spring, 1958.

The new house will be located on Sylvan Street, at 13th Avenue, in Emporia, adjacent to the school's new faculty housing area. The chapter acquired four lots with combined measurements of 160 by 155 feet.

Of contemporary design, the new house will feature three floors of split level. Construction will be of concrete and block with brick trim, and the house will have capacity for 40 men.

Lambda chapter estimates the cost of its new home at \$60,000. The group had been working with building plans for some time, but the decision to build now was made necessary by the condemnation of the present chapter property for campus expansion.

Justin P. Follette, California '15, is sales supervisor for the Goodwill Industries of Oakland. He reports a family of three daughters, one son and eleven grandchildren. His address is 3009 Park Blvd., Oakland 10, California.

Vernon A. Deuscher, Kansas State '54, is now living at 1724 8th Avenue, S.E., Cedar Rapids, Iowa. He is assistant manager of the Quaker Oaks company plant at Cedar Rapids. He had been working in Chicago.

1958 CONCLAVE PLANNED

**Estes Park, Colorado, Will Be Site
Of Fraternity's Greatest Conclave**

"Colorful Colorado" will be the site of Alpha Kappa Lambda's 19th National Conclave, it has been announced by Dr. Ted F. Andrews, AKL National President. The sessions will be held August 31 to September 3, 1958, at the Stanley Hotel, a resort hotel nestled in the mountains near Estes Park, Colorado, and the entrance to the Rocky Mountain National Park.

In a unique experiment, AKL has scheduled its biennial convention at this resort area so that there can be greater participation by both active and alumni members. The outstanding recreational facilities of the location will provide an interesting time for wives and families of AKL members while the convention is in progress. Early reports from many sources indicate that many will be in attendance at the 19th Conclave who have not previously participated

and will include the Estes Park stop on a vacation schedule.

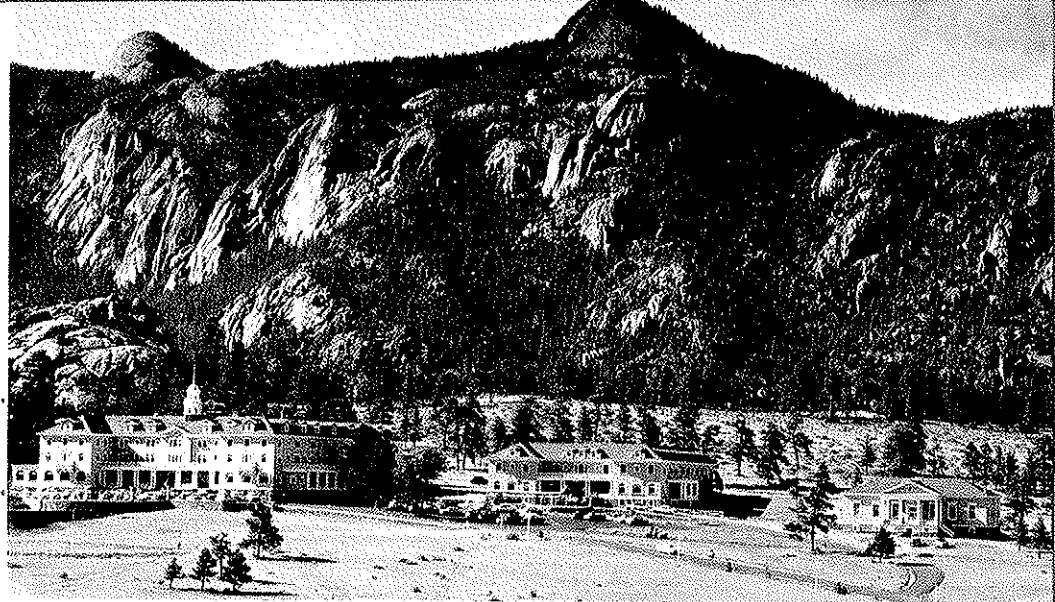

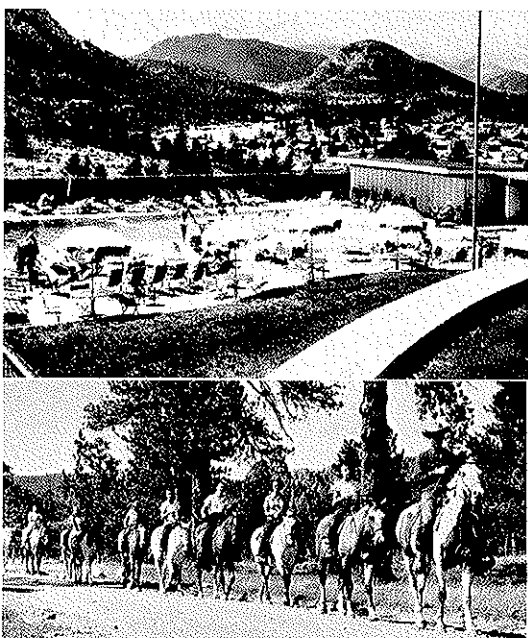

The Stanley is located on a 160-acre estate, in a lush mountain valley 7,500 feet above sea level. It is surrounded on all sides by towering peaks, many of them in the 400-square mile area of the Rocky Mountain National Park. Famed "Long's Peak," 14,255 feet high, is part of the scenic view from the Hotel's front porch.

The Hotel and its auditorium and other buildings were originally built at a cost of over one million dollars. In recent years a similar sum has been spent for improvements and modernization, and the Hotel now features a heated outdoor swimming pool, and casino auditorium, several large banquet and dining rooms, and over 170 guest rooms.

The Stanley has a daily schedule of activities, including square dancing, chuck-wagon dinners, horseback riding, fishing, tours of the National Park, golf, lawn games, swimming, and nightly entertainment and dancing. Like many mountain resort facilities, the Stanley is largely staffed by college coeds who spend the summer months working where the recreational facilities are best.

The Conclave schedule is being planned to provide many opportunities for individual relaxation and diversion, and so that all delegates and others can enjoy the scenic beauty of the area.

SPORTS. Countless vacation activities are planned for the AKL Conclave in 1958. Top: the Stanley Hotel's fine outdoor, heated swimming pool. Bottom: a group of riders return after hitting the trail.

CONCLAVE. Site of the AKL's 19th Conclave, to be held in 1958, will be the famed Stanley Hotel at Estes Park, Colorado. Shown above are some of the Hotel buildings. There will be adequate accommodations for all delegates and visitors.

THE LOGOS

Reports on the Alumni

James Van Pelt, Kansas '55, married Elaine Smith, Mission, Kansas, on September 2, 1957. They are now living at 1709 Indiana, Lawrence, while Jim attends K.U. Law School.

Les Hoffman and **Gerry Kroninger**, both Penn State '57, have swapped their fraternity pins for wedding rings. Les, last year's chapter president, was married on June 8 to Shirley Stuart in Williamsport, Pa., and is now a graduate student in physics at the University of Pittsburgh. Gerry married Joan Priebe on June 16 at Shillington, Pa., and is now working for Chrysler Corporation.

Elmer Gibbons, Washington State '54, is farming at Roselia, Washington. He enters the army in December.

John Mihok, Purdue '56, is working for the industrial engineering department of United States Steel in Gary, Indiana. He lives with his parents at 968 Raison St., Gary.

Neil O. Nelson, Kansas '56, is now an ensign in the U.S. Navy, stationed on the U.S.S. Bennington, C.V.A. Essex class aircraft carrier, at San Francisco.

Bill Johnson, Purdue '57, married Pauletta Crow last summer. Bill and his wife are living in St. Louis where Bill is going to meteorology school with the Air Force.

Hugh K. Forsman, California '23, is in the private practice of law at 428 13th St., Oakland 12, Calif.

William N. Zartman, Illinois '56, is working for his Ph.D. in chemical engineering at the University of Michigan. He passed his qualifying exam last year.

John D. Sullivan, Michigan '24, is in engineering and contracting work at Alma, Michigan. His address is 410 West End St., Alma.

John Fultz, Purdue '57, and his wife, the former Phyllis Sherrill, are both teaching at Salem High School, Salem, Indiana.

Holley Becker, Purdue '55, is working as a market analyst for the Spencer Chemical Company in the plastics division. He and his wife Rosie live at 6000 El Monte, Mission, Kansas.

Alvin Frick, Washington State '56, is in Naval OCS in Rhode Island.

Major Harold G. Todd, Kansas State '39, has been transferred to Camp Lejeune, North Carolina where he is Executive Officer on an Infantry Training Battalion. The Todd's home address is 506 Dogwood Lane, Jacksonville, N. Carolina.

Franklyn W. Oatman, California '12, took a chartered boat trip recently through the inland waters between Vancouver Island and the mainland of British Columbia. He did some color photography and also fishing in the Princess Louisa Inlet and other fiords of the British Columbia Coast.

Herbert E. Dux, Illinois '21, is with Pennsylvania Glass Sand Corporation, producers of silica for glass and numerous industrial uses. His four children are Penn State University graduates, all married, with a total of seven children. He mentioned seeing Ken Myers, Illinois '22, at Penn State where he represents the U.S. Department of Agriculture. The Dux address is 113 Martinsburg Rd., Berkeley Springs, West Virginia.

M. Reed Coleman, Michigan '27, is secretary of the Redford branch of the Kiwanis Club of Detroit. His address is 25538 Schoolcraft, Detroit 39, Michigan.

Rosenberry Honored

Judge Marvin B. Rosenberry, Wisconsin Honorary, and former Chief Justice of the Wisconsin Supreme Court, received congratula-

Judge Rosenberry

tions in August on the occasion of his 89th birthday and 65th anniversary in the legal profession.

The Madison **Capital-Times** honored Judge Rosenberry, recalling the 34 years he served on the high court, twenty-one of them as Chief Justice. He was named to the court in 1916, after having practiced law many years at Wausau, Wisconsin. He retired from the Bench in 1950 and is now engaged as an attorney for the Vilas Estate, with his office in the First National Bank Building, Madison, Wisconsin. His home is at 81 Cambridge Road.

A. D. Coons, California '30, became city manager of Monterey on December 1, 1956, after serving in the same capacity for Pacific

Grove for eleven years. His address is 1027 Egan Ave., Pacific Grove, California.

Dr. David R. Hadden, California '27, reports his family is building a new house at 90 Roble Rd., Berkeley 5, California. His daughter, Joy, is taking nursing training at Presbyterian Hospital in New York City, and son, David, is a junior in physics at Reed College. Sons John and Robert are pre-med students at Friend's Academy, Long Island. The family's present address is 3031 Telegraph Ave., Berkeley 5.

Jackson K. Bennett, Stanford '33, can be reached at P.O. Box 945, San Jose, California.

Lawrence Schwendiman, Emporia State '52, writes to protest a Logos item listing him in the Air Force. He is very definitely in the MARINES!

Kenneth C. Hardwicke, Stanford '25, was transferred in March from Chicago to Seattle as assistant to the vice president in charge of the salmon division for a cannery with Alaskan operations. His address is 1641 Evergreen Point Road, Bellevue, Washington.

Robert C. Hieronymus, Illinois '36, has moved his family back to Charleston, West Virginia, after fifteen years in Texas. He is superintendent of the South Charleston plant of Carbide and Carbon Chemicals Corp. He and his wife have three children, Bobby, 10, David, 3, and Ann, 2.

Donald W. Lipp, Michigan '41, is a senior design engineer with North American Aviation, Inc., Columbus Division. His address is 75 Erie Road, Columbus 14, Ohio.

Wayne S. Scott, Kansas State '36, is a political writer on the staff of the **Albuquerque Journal**.

Harry L. Thompson, Ohio State '53, is teaching history and government at Oak Harbor High School, Oak Harbor, Ohio.

Shenk Is Featured

Henry Shenk, Kansas '28, chairman of the department of physical education at the University of Kansas, was featured in a recent issue of that school's **Alumni Magazine** for his duties as general commencement chairman since 1952.

Shenk joined the K.U. faculty in 1941, after thirteen years in high school athletics during which he had five league football championships and four basketball championships. In 1943, he took over the K.U. football team as acting coach, holding down that post until 1945, when he returned to his teaching duties. He has been chairman of the physical education department since 1946.

Commencement exercises at Kansas University involve thousands of students, and the job takes year-around planning. The exercises are traditionally held in the Memorial Stadium, and, the article in the **Alumni Magazine** points out, there has been no rain for the graduation ceremony itself since Shenk joined the faculty, and the sun has shone on every commencement since he took over as general chairman.

Although teaching a fairly full schedule, Henry finds time for civic and fraternal obligations. He is a long time member of the Lawrence, Kansas, school board, and for several years has been a member of AKL's Delta chapter Board of Trustees. He has two sons, John, a freshman in engineering at K.U., and Robert, who is in the ninth grade.

William C. Hensley, Jr., California '47, is sales manager of the Ace Offset Printing Company in Los Angeles. He and his family, including three children, live in the Westchester area. Their address is 8006 Altavan Avenue, Los Angeles 45.

William A. Roberts, Kansas '55, is now stationed at Verona, Italy with the army. He recently spent a leave vacationing in Switzerland, Germany, France, Belgium, and England.

Gilbert E. Raines, Ohio State '54, is employed at Battelle Memorial Institute as a principal chemical engineer. He has two children, Linda and Johnny, and the family lives at 784 Timberman Road, Columbus 12, Ohio.

Charles L. Walton, California '12, has been working as an engineering aide for the U.S. Bureau of Reclamation since his retirement from teaching in 1946. He reports 15 grandchildren. The oldest was graduated from high school last spring.

Reid R. Tombaugh, Illinois '26, is in the real estate and farm management business in Pontiac, Illinois. His address is 555 W. Grove St., Pontiac.

Raymond J. Birk, Kansas '54, is out of service and back in law school. He and his wife, Judy, live at 14 E. Sunnyside in Lawrence.

Rev. Bryant Wilson, California '10, is still working with the Long Beach, California, Baptist church. He is not "lost" as the last directory indicated.

Arthur E. Williams, Washington State '43, has taught music for eight years at the Ilwaco High School while owning and operating Quint Court in Long Beach, Washington. The Williams have two children, Charleen, 9, and Gerald, 4.

Comdr. Kenneth G. Beggs, Wisconsin '34, was inadvertently omitted from the last directory. He can be reached at the Pearl Harbor Naval Shipyard, Navy No. 128 c/o FPO, San Francisco, California.

Donald E. Stone, California '52, planned to complete his Ph.D. thesis in botany last June. His family includes two daughters, Terry 3½, and Janne, 1½.

Spotlighting: AKL EDUCATORS

Dr. John P. Gillin, Wisconsin '27, seems to have followed his heart during 30 years work in the field of anthropology. Now serving as

Dr. Gillin

visiting professor at Columbia University in New York, during the years since receiving his A.B. degree, Dr. Gillin has worked on several continents, taught at several different universities, and written many outstanding papers and studies in the field of anthropology. His regular post is professor of anthropology and research professor at the University of North Carolina, at Chapel Hill.

Born in 1907 in Waterloo, Iowa, he moved to Madison, Wisconsin at the age of five. There, his father, Dr. John L. Gillin, was professor of sociology at the University of Wisconsin from 1912 to 1942. The elder Dr. Gillin, now 87, is an honorary member of Alpha Kappa Lambda.

Young John earned his A.B. from Wisconsin in 1927. The following year he studied at the University of London, and later at the University of Berlin. Then, in 1930 he received a Master's degree from the University of Wisconsin, and in 1931 a Master's degree from Harvard. The Ph.D. came in 1934 from Harvard.

Dr. Gillin's interests have taken him to many countries and to various parts of the United States. In 1930, he did field work in Algeria and in Europe. In 1931, he worked in New Mexico. In 1932-33, he was

in British Guiana, and in 1934-35, in Ecuador and eastern Peru. This was followed by field work in Utah and Wisconsin. Later he did field work in Guatemala, Colombia, Cuba, and Upper Amazon.

Dr. Gillin has also held several different teaching positions. Starting in 1933 on the faculty of Sarah Lawrence College, he later taught at the University of Utah, Ohio State University, Duke University, and since 1946, at the University of North Carolina.

During the school year 1940-41, Dr. Gillin was an honorary fellow in psychology at Yale University. The war years, 1942-44, found him a member of the Board of Economic Warfare, with service at the U.S. Embassy, Lima, Peru.

Because of his special interest and study of the South American countries, during 1950, Dr. Gillin was on a special mission there for UNESCO.

Married in 1934 to Helen Nord, an old childhood friend, the Gillins have one son, John Christian, now a sophomore at Harvard. Mrs. Gillin was state president of the League of Women Voters of North Carolina for three years, and in 1956, she was selected by the U.S. Department of State and the Carrie Chapman Catt Fund to make a tour of South and Central America. In 41 days she made 43 speeches in Spanish and Portuguese to Latin American women's groups.

Dr. Gillin holds membership in Sigma Xi, honorary fraternity; Phi Kappa Phi; the American Sociological Society, of which he was president in 1946-47; the North Carolina Archeological Society; and the American Anthropology

Association. He has been a prolific writer in his field, including, among others, "The Ways of Men," "Cultural Sociology," and "For a Science of Social Man." Several books were also written in collaboration with his father, Dr. John Lewis Gillin.

Robert Magee, Michigan '37, is vice president in charge of production, Thompson Industries, Long Island, New York. His home is at 96 Quaker Ridge Rd., Manhasset, Long Island, New York.

Arno J. Haack, Washington State '25, finds himself unusually busy these days because of the fifty million dollar development and expansion program at Washington University, St. Louis, where he is Dean of Students. The Haack's home address is 541 Marshall Ave., Webster Groves, 19, Mo.

Maunsell Van Rensselaer, California '23, is co-founder and director of the Saratoga Horticultural Foundation, Saratoga, California. He was 1956-57 president of the American Association of Botanical Gardens and Arboretums.

Harley B. Splitt, Wisconsin '45, is chief accountant for the Fox River Tractor Company in Appleton, Wisconsin. His address is 1717 S. Peabody St., Appleton.

W. Verne Darnall, Illinois '22, has been re-elected secretary-treasurer of the Arkansas Brahman Ass'n and is a director of the Arkansas Beef Cattlemen's Council. He reports both he and his wife are active members of St. Paul's Methodist Church, Little Rock, Arkansas. Their home address is 7016 Richwood Road, Little Rock.

James R. Shields, Kansas State '50, is the proud father of a very beautiful daughter, Elizabeth Ann, born February 4, 1956. His address is 9113 West 69th Street, Merriam, Kansas.

Marple To New Post

Dr. Charles D. Marple, Stanford '33, is now serving as medical director of the American Foundation for Allergic Diseases, having assumed the new post in October, 1957. He had formerly been medical director of the American Heart Association.

In his new position, Dr. Marple will administer the research and scientific program of the Foundation and will be responsible for developing an educational program for both physicians and laymen concerned with the causes, treatment and prevention of allergic diseases.

A native of California, Dr. Marple received his university education at Stanford University, receiving his M.D. degree in 1938. He had held many medical and research posts, and for a time was on the faculty of the University of California Medical Center in San Francisco. He has also authored several original medical papers, on research, clinical observations and medical education.

Long active in Alpha Kappa Lambda fraternity affairs, Chuck was for a time during the 1930's assistant editor of *The Logos*, and he is now a frequent contributor to the magazine. He is also a member of Alpha Kappa Kappa, professional medical fraternity, for whom he edits a national quarterly journal.

E. F. Smyth, California '14, is a retired agriculturist, living at 540 Puente Drive, Santa Barbara, Calif.

Philip J. Davis, California '54, has enrolled as member of the June, 1958, class of the American Institute for Foreign Trade, Phoenix, Arizona. He is specializing in the Far East in preparation for a career in American business or government abroad.

WICHITA ALUMNI. The annual picnic of the Wichita Alumni Chapter was held in July at Fairmount Park, Wichita. Shown above is part of the group of AKL's and wives who attended.

Brown Advanced

F. Stewart Brown, Illinois '31, who is chief of the engineering division of the North Pacific division, Corps of Engineers, was recently honored by being promoted to the highest government civil service rating, GS-16. This is the first such rating given to an engineer outside of the chief of engineer's office in Washington.

A native of Chicago and a graduate of the University of Illinois, where he was a member of Gamma chapter, Brown has been in the Portland, Oregon, area since March, 1952. Prior to that, he was chief of engineering in the Seattle district office and supervised the design of Chief Joseph dam and Albeni Falls dam, as well as a variety of military projects.

He has been with the corps of engineers since 1931, and has had duty on the Mississippi river, on the Passamaquoddy tidal power project in Maine, on flood control, river and harbor engineering, at Boston, and three years at Panama Canal zone.

Stewart makes his home at 3225 S.W. 100th Avenue, Portland, Oregon. He and his wife have three children: Charles, who graduates from Montana State University in 1958; Gail, who is a sophomore at Oregon State College; and Dick, a junior in high school.

Jerry R. Wicks, Millikin '57, is teaching Spanish and history at West Unity Junior High School, Sadones, Illinois. His address is 310½ East Pembroke, Tuscola, Ill.

Fred A. Miller, Stanford, '26, lives at West Point Drive, Bakersfield, California.

Dale Hesterman, Purdue '57, is personnel officer for the 260 airmen stationed at Osceola Air Force Base. Dale and his wife, Shirley, can be reached at Box 412, Osceola, Wisconsin.

Roy G. Snell, Washington '50, reports his eighth move in seven years has landed him in Kennewick, Washington, as mortgage credit examiner for the Federal Housing Administration. His family, wife and son, Richard, 2, live at 6703 W. Willamette Ave., Kennewick.

George M. Beckmann, Kansas Honorary, is now serving Delta as chapter advisor. Dr. Beckmann is an associate professor of history at Kansas University and received his A.B. from Harvard in 1948 and Ph.D. from Stanford in 1952.

Clifford F. Tye, Washington State '54, is taking pre-flight training with the Navy at Pensacola, Florida.

Wallace B. Black, Illinois '41, is sales manager for Children's Press, Inc., 310 S. Racine Ave., Chicago, Illinois. His home address is 1386 Sunnyside, Highland Park, Illinois.

Maurice E. Knowles, Washington State '50, is now connected with Westinghouse Electric in Los Angeles as application engineer in the industrial electrical apparatus division. His address is 2540 Bruce Lane, La Habra, California.

Joseph B. Rogers, Washington State '37, (Past National President 1945-1947) is now in the personnel division of the Washington Office of the Soil Conservation Service. His home address is 814 N. West St., Falls Church, Va., about ten miles from the District line.

Carl R. Rogers, Wisconsin '24, has returned to his alma mater as a professor in psychology and psychiatry after a notable twelve years at the University of Chicago. An extensive write-up of Dr. Roger's work appeared in the July 1 issue of Time magazine.

Ransom Chase, California '26, has been serving for the past ten years on the Metropolitan District Water Board in Los Angeles, a responsibility involving hundreds of millions of dollars annually.

Bert Larkin, Kansas '53, has been named a research engineer at the new research center of the Ohio

Oil company in Denver. He holds a doctor's degree in chemical engineering from the University of Michigan.

Win Goodwin, Purdue '56, has about six months of training to complete at Hutchinson Air Base where he is learning about land based multi-engined aircraft. Win's address is 111 E. 17th, Hutchinson, Kansas.

Harold F. MacDonald, Washington '33, reports his activities consist of raising his fifteen-year-old daughter, Dawn, and acting as landlord on the top floor of the Kodiak Cold Storage building. His address is Box 1593, Kodiak, Alaska.

Walter L. Peter, Stanford '51, was incorrectly listed in the directory as "Peterson." He is a sales representative for Standard Register Company in San Mateo. His address is 585 South Road, Belmont, California.

James C. Rohrer, Purdue '52, has been with Esso Research and Engineering Company nearly six years. He and his wife announced the birth of their daughter, Sue Ellen, on May 19, 1956.

It is with sorrow that the deaths of the following brothers are noted on the Fraternity's Omega Roll:

Rev. Dr. Samuel B. Braden, Kansas Honorary, died at McPherson, Kansas, on November 9, 1957. He was 81. During the 1920's he served as Dean of the Bible Chair at the University of Kansas, and was initiated into Alpha Kappa Lambda. Later, he was pastor of a Wichita, Kansas, church, and then superintendent of Axtell Christian Hospital at Newton, Kansas. His wife preceded him in death.

Harry M. Stewart, Kansas '20, died at Manhattan, Kansas, on September 4, 1957, after several years of declining health. For 31 years he was professor of accounting at Kansas State College, having joined the faculty in 1926. Professor Stewart was one of the men responsible for the founding of Iota chapter at Kansas State College, and for many years he was chapter advisor and alumni treasurer. He had also served as National Treasurer. He is survived by his wife and two grown sons.

Barkson Wins Honor

Joseph A. Barkson, Illinois Honorary, completed a 10-year part time project last summer, when he was awarded the degree of Doctor

Joe Barkson

of Philosophy in Electrical Engineering by the University of Illinois. A 1925 graduate of the University of Michigan, Dr. Barkson for 21 years was employed by the Long Lines Department of the Telephone and Company in various engineering and supervisory positions.

During World War II, he was on the staff of Columbia University, division of war research, and also the radiation laboratory of Massachusetts Institute of Technology. From 1947 to 1955, he was on the academic staff of the University of Illinois, and since 1955 he has been a member of the technical staff of the Microwave Laboratory of Hughes Aircraft Company, in Los Angeles, serving in the advance studies section of the antenna department.

Not one to be idle, Joe also is lecturer in engineering at U.C.L.A. and teaches extension courses in applied electromagnetic theory. His wife, Dorothy, is counsellor at U.C.L.A. and is nearing an M.A. degree in educational psychology. They have been married 30 years, with their present home at 7264 West 88th Place, Los Angeles 45, California.

Brewster Awarded

Dr. Ray Q. Brewster, Kansas Honorary, long-time professor of chemistry at the University of Kan-

sas, was awarded the 1957 Midwest Award of the American Chemical Society's St. Louis section, in ceremonies in early November.

Brewster has been on the K.U. faculty for 38 years and is head of the chemistry department. He is also author of several college texts, particularly in the field of organic chemistry.

David Stephenson, Washington State '55, married Janet Jewsberry on August 10, 1957.

Robert J. Evans, Kansas '52, married Hazel McEwen of Albuquerque, New Mexico, last August. The couple is living in Kansas City where Bob is a teacher at the Roeland Park school.

John L. Brown, Illinois '31, moved to Hendersonville, North Carolina, in September, 1956. He is a technician with the Soil Conservation Service in charge of the 72,000-acre Mud Creek Watershed Project. He and his wife, Mildred, have a daughter in college at Greensboro, N.C., and a son in Hendersonville schools. Their address is Box 738, Hendersonville.

William Thomas, Stanford '43, lives at 1331 Gannon Drive, Sacramento 25, California.

J. Glenn Hahn, Kansas '48, recently received the degree of doctor of the science of law from Yale University. He is associated with the tax firm of Morelock, Hoskins, & King in Kansas City. The Hahn's live at 5549 Canterbury Road, Kansas City 3, Kansas.

Anthony J. Janos, Ohio '52, can be reached at RFD No. 1, Chapel Road, Monaca, Pennsylvania.

Robert C. Rice, Washington State '54, is now working for Boeing Airplane Company in Seattle, Washington. He is a facilities engineer in the architectural field.

Peter D. Couch, Illinois '53, is doing personnel work for Cummins Engine Company, Inc., in Columbus, Indiana. His address is 1491 Grand Ave., Columbus.

LOGOS FOUNDATION LIST OF CONTRIBUTORS

The Trustees of the Logos Foundation wish to acknowledge with deep appreciation contributions from the Brothers whose names are printed below. Appreciated, too, are the many letters received from many parts of the world containing suggestions, comments and words of encouragement. Without this fine practical and moral support it would have been impossible for the Foundation to carry on its work in behalf of the Fraternity. The period covered in this report March 1, 1957 to November 22, 1957.

*Dr. Charles H. Kingsbury	Alexander Marble	Robert C. Rice
William A. Shuey	Charles R. Tieman	Herbert P. Herms
Wray Enders	Ira L. Daniel	Danton B. Sailor
